ers will add a touch of color. The arrangements for this affair, which is regarded as one of infinite possibilities, have been placed in the hands of Jamie Wilder.
T. Clive Davies is to be requested to arrange for a visit of the excursionists to the iron works, of which institution the city is justly proud.
A business men's luncheon is another important feature of the program. This will be tendered to those men of the party who are members of the Los Angeles Chamber of Commerce or affiliated organizations, by the members of the local Chamber of Commerce and Merchants' Association, and will probably take place at the Young Hotel. M. Phillips and Alex. Garvie will be in charge.
F. S. Dodge was appointed a committee of one to arrange for a special afternoon at the Bishop Museum.
An effort will be made to give a reception to the ladies of the party at one of the city's private homes.
It was also proposed that the committee meet the Ohio off the harbor with leis and flowers with which to decorate the visitors.
E. H. Paria, R. W. Shingle and W. W. Harris were appointed as a finance committee. It is the idea to collect the necessary funds by popular subscription. These will, however, not be spent on the regatta, for which a fund has already been collected, or for the luncheon, which will be paid for by the business men. The members present at the meeting this morning each contributed \$5, forming a nest-egg of \$45 to start with.

GREAT REVIVAL MEETINGS

The Salvation Army will institute a great siege which will last from Feb. 10 to March 10. Great revival meetings will be held in the Salvation Army hall, corner King street and Nuuanu avenue. Every evening will be devoted to revivals except Wednesday evening of each week. The public is cordially invited to attend.

PINKHAM'S REPORT IS INTERESTING

THAT IS WHAT YOU WANT

President Pinkham of the Board of Health has prepared a pamphlet on the Kapiolani Girls' Home, which has just been published and which was submitted by Mr. Pinkham to the Board at the meeting held this afternoon.
Besides the interesting account of the girls' home and an outline of what is proposed in regard to the boys' home which it is proposed to build at Waimea, there are a number of photographic illustrations of the girls' home.
President Pinkham's report is in most part as follows:
Honolulu, January 30, 1907.
To the Members of the Board of Health:
It is to be most sincerely hoped that the coming Legislature, and all succeeding Legislatures will make the titles of appropriations for the Girls' and Boys' Homes read:
Kapiolani Girls' Home Pay Roll;
Boys' Home Pay Roll;
Support of Kapiolani Girls' Home;
Support of Boys' Home;
and forever discard the title of "Non-leprous Female for Male Children of Leprous Parents." I very much doubt if it is fair to place such a stigma, as is at present the case, on these children of leprous parents.
We have now had an experience of twenty-two years and three months with girls at the Kapiolani Girls' Home, and of one hundred and five received, but six have been returned to the Settlement.
It is more than probable that these six been promptly taken from their parents after birth and brought up in a nursery until old enough to be transferred to the Kapiolani Girls' Home, most of them would not have developed the disease.
In order that, in the future, no chances may be taken we have purchased the materials and are about to erect a most complete and up-to-date nursery at Kalaupapa, Molokai, where in all babies born in the Settlement will be immediately cared for. This was undertaken with the approval of the residents at the Settlement.
The girls now at the Kapiolani Girls' Home appear very healthy and happy, as much, if not more so, than average children.
This institution is a marvel of what can be done with a little money, and what girls themselves may accomplish when willing to work.
I see no happier faces anywhere than those in this Home.
At present the place shelters three Sisters in charge, forty-five girls and six employees.
HOME FOR NON-LEPROUS MALE CHILDREN OF LEPROUS PARENTS.
The Legislature, session of 1905, appropriated the sum of \$5,000 with which to establish a Home and \$3000 per year for its support.
Neither sum was sufficient to establish the Home or maintain the fifty-six boys designated, of whom thirty-two are under six years of age. These young boys require motherly attention, which can only be secured by consecration, rather than by hire.
Agriculture is the mainstay of the Hawaiian Islands, and so far as Hawaiian boys can be induced to accept agriculture, I believe they should be urged to do so.
Certain classes of agriculture, falsely represented as profitable occupations for independent individual farmers, are rapidly being absorbed by great organizations of capital and labor reduced to Oriental standards. Such a tendency is depressing and discouraging to individual effort and independence.
Dairy farming, with allied products, is one of the greatest, possibly the greatest, support of the American farmer. This occupation requires the care of animals of which the Hawaiian is fond, hence with proper training it might be an agreeable occupation for them. Dairy products are in demand in this Territory, but nowhere is the business properly organized to meet the demand. The only remaining area of government lands capable of supporting a community of dairy farmers are the lands of Puna, Kohala, Kamae and Nienie, Hamakua, and possibly other lands extending toward the southeast. A milk producing community is necessary to employ a first class creamery, ice and cold storage plant, without which a market standard for butter and cheese cannot be secured.
Here is an area of suitable land that could support quite a population, and a demand right within our Territory not supplied. It would seem the government could inexpensively set an example that would cause the utilization of these lands for our own people. It is not necessary to discuss the subject at length in this memorandum. Subject to your advice and correction I would suggest the following plan for the establishment of the "Home for Non-leprous Male Children of Leprous Parents":
That a branch of the Home, for the boys under nine years of age, be established in Kalihi Valley, Oahu, on grounds owned or to be acquired near
